

## Assistant Civil Engineer

Pay Rate: \$34/hr to \$45/hr

### About Us

Encompass Consultant Group, Inc. (ECG) is a growing Civil Engineering and Land Surveying firm dedicated to delivering innovative and sustainable solutions for public and private sector projects. We are an employee-owned company providing exceptional services throughout Ventura County, Northern LA County and the surrounding areas. Our team of civil engineers and land surveyors take great pride in our services, projects and client relationships that serve to build and improve our local communities.

### Why Join Us?

- ✓ Competitive salary and performance-based bonuses.
- ✓ Comprehensive benefits package (medical, dental, vision, 401k, etc.).
- ✓ Career development and training opportunities.
- ✓ Supportive and collaborative work environment.
- ✓ Exciting projects that make a difference in our communities.

✓ ECG is based in **Camarillo, CA** with offices in **Santa Clarita** and **Lancaster, CA**. We are hiring in all locations.

Our offices support the areas surrounding beautiful Ventura County and the flourishing Santa Clarita and Antelope valleys. These are dynamic communities with exciting growth and potential, making them great places to live and work.

**We are seeking an enthusiastic Assistant Civil Engineer to join our team. This entry-level role is ideal for a motivated individual looking to gain hands-on experience, develop technical skills, and grow within the civil engineering profession.**

### Key Responsibilities

- Assist in the design and analysis of roadway, site development, stormwater, water/wastewater, grading, or other relevant projects.
- Support the preparation of engineering calculations, reports, drawings, and cost estimates.
- Work under the direction of project engineers and managers on various design tasks.
- Assist with field investigations, site inspections, and data collection.
- Utilize AutoCAD Civil 3D, or other relevant software to prepare project plans.
- Coordinate with internal teams, clients, and public agencies as needed.
- Ensure compliance with local, state, and federal regulations and design standards.
- Stay informed on industry standards, best practices, and emerging technologies.

### Qualifications

- Bachelor's degree in Civil Engineering or a related field.
- Engineer-in-Training (EIT) certification preferred or in progress.
- 0-3 years of relevant civil engineering experience (internship experience is a plus).
- Working knowledge of AutoCAD Civil 3D, or other relevant software preferred.
- Has good analytical, problem-solving, and communication skills.
- Ability to work effectively in a team environment and adapt to project needs.

If you're ready to advance your career and make a lasting impact, we'd love to hear from you!
