

## Associate Civil Engineer

Annual Salary Range: \$99,000 to \$115,000

### About Us

Encompass Consultant Group, Inc. (ECG) is a growing Civil Engineering and Land Surveying firm dedicated to delivering innovative and sustainable solutions for public and private sector projects. We are an employee-owned company providing exceptional services throughout Ventura County, Northern LA County and the surrounding areas. Our team of civil engineers and land surveyors take great pride in our services, projects and client relationships that serve to build and improve our local communities.

### Why Join Us?

- ✓ Competitive salary and performance-based bonuses.
- ✓ Comprehensive benefits package (medical, dental, vision, 401k, etc.).
- ✓ Career development and training opportunities.
- ✓ Supportive and collaborative work environment.
- ✓ Exciting projects that make a difference in our communities.

✓ ECG is based in **Camarillo, CA** with offices in **Santa Clarita** and **Lancaster, CA**. We are hiring in all locations.

Our offices support the areas surrounding beautiful Ventura County and the flourishing Santa Clarita and Antelope valleys. These are dynamic communities with exciting growth and potential, making them great places to live and work.

**We are seeking a motivated Associate Civil Engineer to support our team with design, production, and project coordination. This is an excellent opportunity for a mid-level engineer looking to expand their technical skills, gain project management experience, and contribute to meaningful projects.**

### Key Responsibilities

- Assist in the planning, design, and analysis of site development, roadway, grading, stormwater, water/wastewater, or other relevant projects.
- Prepare engineering calculations, reports, cost estimates, and design plans.
- Work closely with senior engineers and project managers to develop project solutions.
- Ensure designs comply with local, state, and federal regulations and standards.
- Coordinate with clients, agencies, and multidisciplinary teams.
- Conduct field visits and inspections to support design and construction efforts.
- Utilize AutoCAD Civil 3D, or other relevant software for design and drafting tasks.
- Stay up to date with industry standards, best practices, and emerging technologies.

### Qualifications

- Bachelor's degree in Civil Engineering or a related field.
- Engineer-in-Training (EIT) certification required; PE license or progress toward PE preferred.
- 3 or more years of civil engineering experience in design and project coordination.
- Proficiency in AutoCAD Civil 3D, or other relevant software].
- Familiarity with local design standards, permitting processes, and regulatory requirements.
- Strong analytical, problem-solving, and communication skills.
- Ability to work both independently and collaboratively in a team environment.

If you're ready to advance your career and make a lasting impact, we'd love to hear from you!
