

Assistant Civil Engineer

*Excellent Opportunity with a Growing Company,
Employee-Owned Company*

Pay Rate: \$33/hr - \$45/hr

THE COMPANY:

Encompass Consultant Group, Inc. (ECG) is a growing **Civil Engineering and Land Surveying** company. We are an employee-owned company that provides exceptional services to both public and private clients throughout Ventura County and its surrounding areas. Our team takes great pride in our projects, client relationships, and quality of services, that serve to build and improve our community.

- ECG is employee-owned and we treat the company's success as a collective venture.
- We believe in practical and innovative engineering solutions, providing quality services while cultivating strong client relationships, and being recognized as a company that is a great place to work for and with.

THE POSITION:

We're looking for an Assistant level engineer to be part of our team.

- We offer competitive benefits including employee stock opportunities.
- We also offer a motivating work environment with a supportive team network that works collaboratively and encourages individual growth through our hands-on approach and outside training opportunities.

LOCATION:

Encompass Consultant Group (ECG) is based in Camarillo, CA with additional offices in Santa Clarita and Lancaster, CA. Our offices support the areas surrounding beautiful Ventura County and the flourishing Santa Clarita and Antelope valleys. These are dynamic communities with exciting growth and potential, making them great places to live and work

REQUIREMENTS:

- Bachelor's degree in civil engineering from an accredited university. Engineer in Training (E.I.T) certification is required.
- Proficient with computer modeling programs used to develop designs, including AutoCAD and Civil 3D.
- Individual must have the motivation to learn, be a team player, be a self-starter, have a positive attitude, and work well in a team environment. Must be organized, have good written and verbal communication skills, attention to detail, and sound problem-solving skills.

RESPONSIBILITIES:

Responsible for performing general civil engineering tasks as part of a team under the supervision of a registered civil engineer.

- Perform drafting tasks and assist in plan preparation, designs, calculations, and cost estimates.
- Become proficient in AutoCAD and Civil 3D and develop sound design skills.
- Assist senior engineers with more complex designs, plans, calculations, and surveys.
- Assist the Project Manager in contract administration services during construction.
- Establish good rapport and build relationships with peers and clients by responding to requests through clear and timely communication.
- Remain updated on current professional practices and maintain a high awareness of new products and procedures in industry by monitoring trade publications and actively participating in professional associations.
- Individual may be required to perform surveying tasks such as field surveys and compilation of field data.

Detail oriented, professionally driven engineers are encouraged to contact sal.contreras@ecgcivil.com to discuss current job openings, career opportunities and potential ownership. We look forward to hearing from you.
